

PETROCHEMICALS - CASE STUDIES

Enhancing Operational Efficiency In Petrochemicals With Advanced IT Solutions

Streamlining IT Infrastructure And Enhancing Disaster Recovery For A Leading Oil & Gas Company

CUSTOMER OVERVIEW

Operates across the petroleum refining, marketing, and distribution sectors.

PROBLEM STATEMENT

The client found it challenging to manage its vast IT infrastructure with consistency:

- Small IT team to support massive on-prem infrastructure.
- Poor utilization of IT resources and load balancing issues.
- Low bandwidth networks affecting app and desktop delivery.
- Need for a reliable disaster recovery solution.

REQUIREMENT

The client sought a scalable, high-performance IT infrastructure that could streamline operations, improve accessibility, and ensure disaster recovery.

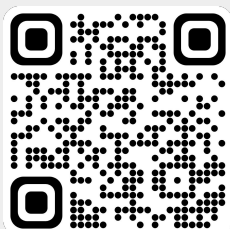

ACCOPS SOLUTION

- HyWorks for end-user computing virtualization.
- HySecure for secure, zero-trust application access.

BENEFITS REALIZED

- **Flexibility and scalability:** Seamlessly delivered system upgrades and ongoing support.
- **High availability:** Provided 24x7 access to apps and desktops with minimal downtime.
- **Simplified control:** Centralized management of apps and endpoints from a single VDI portal.
- **Reduced IT costs:** Lowered operational expenses for IT operations by 25%.
- **Enhanced security:** Reliable security with app access gateway and disaster recovery capabilities.
- **Better user experience:** Optimized performance even over low-bandwidth networks and remote locations.
